Jaiswal.abhinaw@gmail.com

CERTIFICATIONS

- ✓ Terraform Associate
- ✓ Azure DevOps
- ✓ AWS Certified Cloud Practitioner
- ✓ Oracle Cloud Architect
- ✓ OCI Mult Cloud Architect
- ✓ Microsoft Certified Azur Administrator
- ✓ Artificial Intelligence Professional
- ✓ Observability Management

EDUCATION

MCA -2004 - 2008

BACHLOR DEGREE
2002 - 2003

NOTICE PERIOD - 60DAYS

VALID PASSPORT -
Z6820225 PAN -
AICPJ5862D

PROFESSIONAL PROFILE

Cloud Presales & Solutions Leader with 16+ years of experience in AI, Cloud, Private Cloud, Hybrid Cloud, Data Center Transformation, and Enterprise Infrastructure. Expert in solution architecture, technical presales, CXO engagement, consultative selling, POCs, RFP/RFI/RFQ, proposal management, and strategic bid management across **AWS, Azure, OCI, and Tata Communications Vayu Cloud**, delivering business-led transformation for Government, PSU, BFSI, Healthcare, and Enterprise customers.

CORE COMPETENCIES

AI & Generative AI | Multi-Cloud Architecture | Hybrid Cloud | Cloud Migration | Infrastructure Modernization | Cloud Security | FinOps | Solution Architecture | Technical Presales | Digital Transformation | Stakeholder Management | Technology Consulting | HA/DR & BCP | Infrastructure Assessment | CAF | Effort Estimation | Risk & Governance | Vendor & OEM

TECHNICAL EXPERTISE

Cloud Platforms: AWS | Microsoft Azure | Oracle Cloud Infrastructure (OCI) | Tata Communications Vayu Cloud | VMware | Nutanix | Private & Hybrid Cloud

AI & Cloud Native: AI Infrastructure | Generative AI | GPU Cloud (NVIDIA H100/H200) | Kubernetes | Docker | OpenShift

DevOps & Automation: Terraform | Ansible | Jenkins | Git | Python | Shell Scripting | CI/CD | Infrastructure as Code (IaC)

Enterprise Infrastructure: Data Center Transformation | Compute | Storage | Virtualization | Backup & Recovery | Disaster Recovery | Business Continuity | WAFF | Firewall | Network

Monitoring & Tools: Azure Monitor | AWS CloudWatch | Commvault | RackWare | Carbonite | Hystax | DB and AD Native tool | DR Replication |

Operating Systems: Linux | Windows Server | CentOS | Solaris | HP-UX | AIX

Presales & Solution Architecture: Solution Architecture | Cloud Adoption Framework (CAF) | Landing Zones | HLD/LLD | BoM | Capacity Planning | Solution Sizing | Cost Estimation | RFP/RFI/RFQ | Proposal & Bid Management | CXO Advisory | TCO/ROI | Value Engineering

KEY ACHIEVEMENTS

- ✓ Influenced **100+ Cr** enterprise opportunities across **Government, PSU, BFSI, Healthcare, and Enterprise** through strategic cloud and digital transformation initiatives.
- ✓ Architected and positioned **100+** enterprise solutions spanning **AI, Private Cloud, Hybrid Cloud, Data Centre Modernization, Infrastructure, and Managed Services.**
- ✓ Led end-to-end technical solutioning for **50+** strategic **RFP/RFI/RFQ** responses, including solution design, **BoM**, sizing, costing, and proposal development.
- ✓ Delivered **100+** executive customer workshops, discovery sessions, and CXO presentations on **AI, Cloud, Cybersecurity, Digital Transformation, and Infrastructure Modernization DR Solutions.**
- ✓ Enabled enterprise adoption of **AI, automation, cloud migration, modernization, and managed services**, aligning technology investments with business outcomes.
- ✓ Designed scalable **multi-cloud and hybrid cloud architectures** leveraging **AWS, Microsoft Azure, Oracle Cloud Infrastructure (OCI), and Tata Communications Vayu Cloud.**
- ✓ Improved proposal win rates through **consultative selling, value engineering, competitive solution positioning.**

TATA COMMUNICATIONS | Feb 2026 – Current
Sr.Manager Cloud Presales – MHS and Cyber Sec

Leading cloud, cybersecurity, managed services, and digital infrastructure solutioning for Enterprise, Government, PSU, BFSI, and Healthcare customers.

Key Contributions

- ✓ Lead strategic presales engagements for cloud, cybersecurity, managed services, and digital transformation opportunities across public and private sector customers.
- ✓ Influence large-scale opportunities through CXO advisory, customer Discovery/workshops, business case development, and consultative solution selling.
- ✓ Architect integrated cloud, security, and infrastructure solutions covering hybrid cloud, modernization, migration, disaster recovery, managed services, and operational transformation, Data Lake, SAP HANA and AI based adoption.
- ✓ Drive RFP/RFI/RFQ responses including technical solutioning, compliance mapping, risk assessment, commercial alignment, and proposal governance, RACI Matrix, SOW , WSR .
- ✓ Advised customers on AI/GenAI adoption, AI governance, LLM inference architectures, GPU infrastructure (NVIDIA H100/H200), AI workload sizing, and enterprise AI platform design.
- ✓ Partner with Sales, Delivery, Finance, OEMs, and Product teams to develop competitive proposals and improve win probability- OEMs (Dell, HPE, Cisco, Nutanix, NetApp, Pure Storage)
- ✓ Conduct executive presentations, bid defense sessions, technical workshops, and stakeholder reviews supporting strategic customer pursuits.
- ✓ Develop architecture deliverables including HLDs, LLDs, SOWs, BoMs, BoQs, migration strategies, implementation roadmaps, and transition plans.
- ✓ Supported techno-commercial proposal development through solution sizing, capacity planning, effort estimation, cost modelling, TCO/ROI analysis, and business case preparation.
- ✓ Architected AI-ready infrastructure solutions leveraging NVIDIA GPU platforms (H100/H200) for enterprise AI, GenAI, and HPC workloads.
- ✓ Performed GPU/CPU , INFRA sizing, capacity planning, and infrastructure assessment for AI/ML platforms, ensuring scalable and cost-optimized solution designs. Developed AI /Cloud infrastructure architectures encompassing high-performance compute, AI storage, and high-speed networking for mission-critical workloads.

ORACLE INDIA | 2022 – Feb 2026
Principle Consultant – Global Cloud Solutions

Led Oracle Cloud Infrastructure (OCI) solution architecture, cloud transformation, migration strategy, and implementation advisory engagements for enterprise customers.

Key Contributions

- ✓ Contributed OCI presales consulting, cloud architecture, migration strategy, and implementation engagements.
- ✓ Architected OCI solutions covering compute, storage, networking, security, database, governance, disaster recovery, and business continuity.
- ✓ Designed Hybrid Cloud and Multi-Cloud architectures integrating OCI with AWS, Azure, and on-premises environments.
- ✓ Led workload, VM, database, and application migration planning initiatives supporting enterprise modernization programs.
- ✓ Delivered architecture artifacts including HLDs, LLDs, migration strategies, implementation roadmaps, SOWs, BoMs, BoQs, and governance frameworks.
- ✓ Leveraged Terraform, Ansible, Python, RackWare, Git, and OCI-native services to accelerate cloud deployment and automation initiatives.
- ✓ Conducted executive presentations, architecture reviews, technical workshops, demonstrations, and bid defense sessions.
- ✓ Collaborated with Sales, Product, Engineering, Delivery, and Partner organizations to drive customer success and cloud adoption.
- ✓ Performed solution sizing, effort estimation, cost modelling, TCO/ROI analysis, licensing optimization, and business case development to support commercial and technical decision-making.

- ✓ Designed migration solutions leveraging Oracle Cloud Migrations, Oracle Zero Downtime Migration (ZDM), RackWare, Oracle Data Guard, GoldenGate, and OCI Database Migration services to minimize business disruption.
- ✓ Architected OCI landing zones incorporating VCN, FastConnect, DRG, Load Balancer, Web Application Firewall (WAF), IAM, NSGs, Object Storage, Block Volumes, File Storage, and OCI Backup services.
- ✓ Planned and executed hybrid cloud architectures integrating OCI with AWS, Microsoft Azure, and on-premises environments using FastConnect, VPN, and secure network connectivity.
- ✓ Performed workload discovery, dependency mapping, cloud readiness assessments, migration wave planning, application rationalization, and post-migration optimization for enterprise transformation initiatives.
- ✓ Designed high availability and disaster recovery solutions using Oracle Data Guard, OCI Load Balancer, OCI Object Storage, Backup & Recovery, and multi-Availability Domain architectures.

HCL INDIA | 2012 – 2022

Associate Consultant

Delivered cloud engineering, infrastructure modernization, migration, and DevOps solutions across AWS and Azure environments for global enterprise customers including PepsiCo and IBASIS.

Key Contributions

- ✓ Delivered AWS and Azure cloud transformation, migration, infrastructure modernization, and DevOps solutions.
- ✓ Designed and implemented Infrastructure-as-Code (IaC) frameworks using Terraform and Ansible.
- ✓ Built CI/CD pipelines leveraging Jenkins, Docker, Kubernetes, Packer, and automation toolchains.
- ✓ Led Azure migration initiatives covering compute, networking, load balancing, high availability, and workload modernization.
- ✓ Managed Azure security and governance services including Azure AD, MFA, RBAC, NSGs, policy management, and firewall solutions.
- ✓ Designed hybrid networking architectures using VPNs, ExpressRoute, Hub-and-Spoke topologies, and secure connectivity models.
- ✓ Delivered Linux-based IoT and cloud platforms focused on scalability, automation, governance, and operational excellence.
- ✓ Supported architecture reviews, technical workshops, solution demonstrations, and customer transformation engagements.

Tech Mahindra | 2011 – 2012

Operation- Administrator

- ✓ Delivered thought leadership and research-driven insights on cloud transformation, cloud security frameworks, and cloud financial management to executive leadership teams.
- ✓ Adept at assessing and mitigating cloud security, compliance, and governance risks while ensuring smooth multi-cloud and hybrid deployments.
- ✓ Skilled at collaborating with C-level stakeholders to shape cloud adoption strategies aligned with organizational goals and digital transformation initiatives.
- ✓ Strong technical writing, research, and presentation skills, with a proven track record of delivering evidence-based insights and engaging diverse global audiences
- ✓ Proven expertise as a Cloud Architect, driving cloud migration, modernization, and optimization initiatives leveraging AWS, Azure, and Google Cloud Platform.
- ✓ Successfully designed and implemented cloud operating models and governance frameworks, enabling enterprises to optimize cloud costs, manage risks, and accelerate transformation

Xavient | 2008 – 2011

Engineer – Infrastructure

Provided enterprise virtualization and Unix infrastructure support for large-scale production environments.

Key Contributions

- ✓ Managed VMware ESX/ESXi infrastructure including VM provisioning, template management, patching, performance monitoring, and migration activities (vMotion & Storage vMotion).
- ✓ Administered and supported 4,000+ HP-UX servers across HP Integrity and PA-RISC platforms.
- ✓ Configured and managed vPAR, nPAR, IVM, ServiceGuard Clusters, LVM, and VxVM environments.
- ✓ Performed server provisioning, OS deployment, backup, restoration, and disaster recovery activities using Ignite-UX.
- ✓ Collaborated with application, storage, and network teams to deliver infrastructure support, troubleshooting, and SLA-driven operations.

LINKEDIN CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- ✓ **Hybrid Project Management Certification**
- ✓ **Project Management Foundations: Budget**
- ✓ **B2B Sales Foundations & Go-To-Market Strategy**
- ✓ **Sales Foundations for Entrepreneurs**
- ✓ **Becoming a Successful Channel Manager in Sales**
- ✓ **One-Page Business Plan**
- ✓ **ISO 27001:2022 Cybersecurity Essentials**
- ✓ **CISA Fundamentals**
